

GST08 male-female interconnect lead

GST08 male to female leads are required to interconnect our ANIMATE system DC power products such as the TUF-HP 72W USB charger, QF30 PSU Power Supply and QIKPAC battery pack. The leads are available in 175mm, 500mm, 1000m and 2000m lengths.

Typical scenario

Cable type	H03V2V2H2-F
Connector type	GST08i2
Cable cores	2 x 0.75mm ²
Rated current	6A
Rated voltage	50V
Lockable	No
Colour coding	Green
Cable colour	White
Cable diameter (max)	5.4mm

The GST08 3 way splitter enables a single OE Animate system DC power source to provide power to two devices via GST08 interconnect leads.

Rated current	6A
Rated voltage	50V
Rated impulse voltage	2 kV
Lockable	No
Colour coding	Green
Number of inputs	1
Number of outputs	2
Housing material	PVC

GST08 3-way Splitter

GST08 Converter Cable

The OE GST08 converter cables are available with either a DC jack plug or Micro USB connector.

The GST08 to Micro USB cable converts 30V to 9V to enable ARC-G to be compatible with the GST08 DC system and the ANIMATE range of products.

**Micro USB
(9V)**

Compatible with: ARC-G / PixelARC

The GST08 to DC jack plug cable converts 30V to 19V to enable ARC-H LD to be compatible with the GST08 DC system and the ANIMATE range of products.

**DC jack
(19V)**

Compatible with: ARC H LD Series Wireless Chargers
