

PB series

PB series is the everyday choice for a cost effective power, data / AV module.

Coming in robust black boxed housing, PB series is an off the shelf power module available in standard configurations. Other colour sockets are available for multi-purpose coding by special order.

The sockets used in PB series are part of our global modular component range including data, TUF-PD and VGA options in addition to power. The PB series can be mounted directly to a screen.

The PB series can be configured with Australian or International power sockets on request.

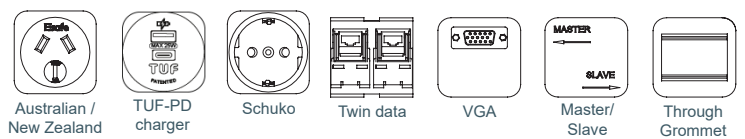

Configuration: Power only / Data only / TUF charger / Combined (Power & Data/AV)
Internal segregation between Power and Data/AV in combined PBs.

Insulation: Reinforced insulation

Testing: 100% testing - continuity, polarity, insulation & earth.

Soft Wiring (power): Power wired to Wieland GST connector allows starter cables to be changed to suit requirements, especially useful during moves and changes (CHURN).

The PB Series is designed and intended for commercial use.

Screen Fixing **Standard Fixing** **Cable Tray Fixing**
