pagoda

PAGODA is a stylish solution from OE Elsafe providing power, data, AV and TUF USB laptop and mobile fast charging to meeting rooms and conference tables.
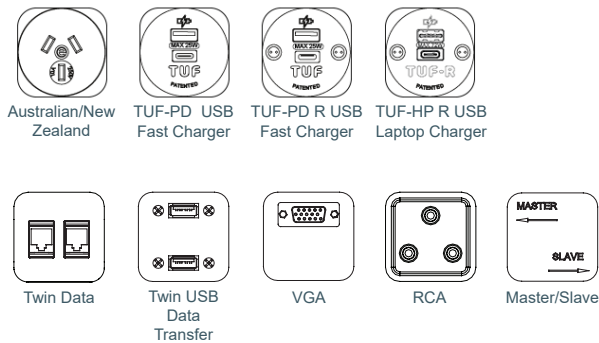

Not just stylish and functional but quick to install; PAGODA simply clamps to a standard Ø80.00mm grommet hole.

PAGODA is defined by its high quality finish. The single piece curved top is available in brushed stainless steel or high gloss black. Specify PAGODA with one of our LED feature lighting options for an even more distinctive look.

As standard PAGODA is supplied with 8 socket outlets to provide any combination of power and USB laptop and mobile charging. PAGODA also features 3 keystone apertures (for data/AV outlets) and VGA and Audio in each end of the module. Blank ends are available if data and/or AV are not required.

FEATURES

Power and Data configurations available

- Power or Data only
- Power and USB Fast Charging
- Combined (Power, USB Fast Charging & Data/AV)
- TUF-HP (high powered) USB Laptop Charging option
- International Sockets available on request

Reversible USB A Port: Accepts cable both ways.

Insulation: QikFIT modules with reinforced insulation.

Testing: 100% testing – continuity, polarity, insulation & earth.

Soft Wiring (power): Power hardwired to Wieland GST connector allows starter cables to be changed to suit requirements, especially during moves or changes (CHURN)

Soft Wired Data: As well as soft-wired power, PAGODA can accommodate soft wired data. Using our inline couplers, data cables can be changed "on-site" to accommodate changes in length often associated with churn

LED feature lighting: Optional red, blue or green 12V LED strips with internal LED driver.

Installation: PAGODA fits to a standard 80mm grommet hole in table tops up to 35mm deep, using the supplied clamp 80 kit. Silicone rubber feet prevent damage to table surfaces.
